

Flannery Residents Speak Out

Below is a letter to the Editor that was published on September, 8 2008 in the Star Gazette.

Flannery personnel have taken care of residents

A few of us at Flannery Apartments would like to say thank you to James Mirando, Bill Fawcett, Tom Doland and all the maintenance and office personnel from the other projects who gave us their help and support while we were having our water problem.

We are not pleased with some of the news media for their reports, which we do not agree with. All of our people have done their very best to keep us informed of each day's progress.

Mirando and everyone from maintenance and office personnel have been here for us since day one -- working 24 hours a day.

We know Mirando and others are concerned about our welfare. We are family, and he expressed this on TV many times and said our well-being is his main concern.
